*Network Capital research paper: Data from 50 world’s largest currencies & gold indicates SLR could be worth $1-5k/user*
SolarCoin value grows with network effects.

Demand: Each individual user grows the market capitalization.

Supply: Each claim increases supply.
Platforms drive growth: users & data

**SolarCoin Foundation needs high quality data confirmed.**

**KYC:** Know your customer

**KYD:** Know your device (installation)

**KYE:** Know your energy (production)

**Utilities, monitoring O&M firm platforms have high quality data.**

Requires a few data points / year

SolarCoin foundation doesn’t market / resell data to end users.

Utility/monitoring platform keeps user relationship

SolarCoin is a nice to have feature in dashboards
SolarCoin is a currency for the solar energy economy

1 MWh = 1 SLR
Free reward program for Utilities & monitoring platforms

- A free incentive for people to sign up to your platform
- Positive news & reward for customers
- Easy to integrate into dashboard as a feature
- Ability to sell your own goods and services in solarcoin
- Bounty of up to $10/user and 10% of first years claims. Can be worth millions of USD for utility company or platform
- You keep your customer’s data and relationship
Anyone can use SolarCoin globally tradeable into multiple currencies.

Tools that will allow 2.2 million e-commerce merchants to accept solarcoin are due in Q1 2019.

Now traded on exchanges 24/7 into BTC/USD/GBP/JPY/CHF.
1. The owner of a solar installation produces solar energy.

2. Utility or monitoring platform invites user to join SolarCoin program with terms & conditions.

3. User is shown available balance of SolarCoin in dashboard.

4. Later. The user may redeem SolarCoin reward.

5. Claimant downloads a SolarCoin wallet and generates a receiving address for SolarCoins.

6. SolarCoin Foundation issues SolarCoins directly into the claimant’s wallet – 1 SolarCoin per 1 MWh of electricity produced.

7. Claimant can collect or spend SolarCoins as they wish.

8. Claimant may receive ongoing SolarCoins every 6 months for 30 years or however long the facility generates energy.

**Solar facility owner gets one SolarCoin for each verified MWh.**
Who is involved already?

World’s largest solar monitoring platform with 25GW and 300,000 installations

ACWA power
$30bn USD power producer
World’s largest CSP plant in Morocco

SolarCoin is targeting 10% of global Solar for 2019 and 25-35% for 2022
SolarCoin bounties pay!

**Affiliate/Platform bounty**
